HIGH QUALITY RUBBER FLOORING PRODUCTS

Gmats Premium Rubber Mats has been leading in the manufacturing and selling of innovative and top-quality rubber mats. Established in Kottayam District of Kerala State, India, Gmats supplies high quality rubber floor mats across India and internationally.

Gmats Premium Mats manufactures a diverse range of vital rubber mats for home, commerce and farms for more than three decades. Being one of the top rubber floor mats manufacturers in India. Gmats constantly persist to bring in cutting-edge rubber flooring solutions to make life easy and convenient. Our good quality rubber mats include Gym Mats, Bubble Mats, Stable Mats, Restaurant Mats and Roll Mats. Apart from being premium quality, these rubber mats are cost-effective and customizable to any size and shape. Our heavy-duty durable rubber mats are washable.

These export quality rubber floor mats are made from natural rubber in compliance with European Standards. We procure good quality natural rubber straight from plantations and stringent quality control measures have been implemented at every stage to ensure best quality for our rubber mats. Besides, our rubber floor mats are completely safe to the health of human beings across ages and animals. Our rubber mats are eco-friendly. Gmats Premium Mats is a subsidiary of Dolphin Rubber Products group company. We are committed to the health, safety and dignity of our employees; laws governing production process and waste management.

VISION

Persistently engage in introducing revolutionary products from natural rubber to improve lives.

MISSION

Enhance satisfaction and profitability of the customers and the company through supplying quality rubber floor mats. Pursue research and development, implement systems and practices to increase productivity and sustain a collaborative and friendly working

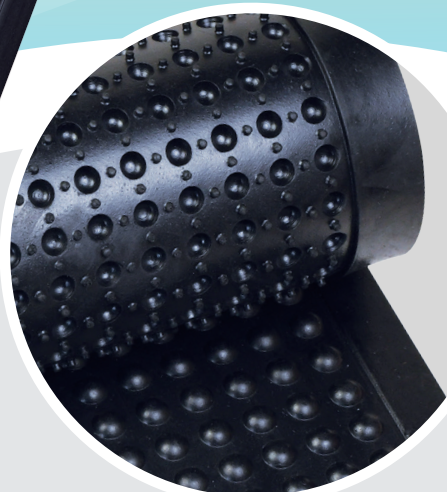

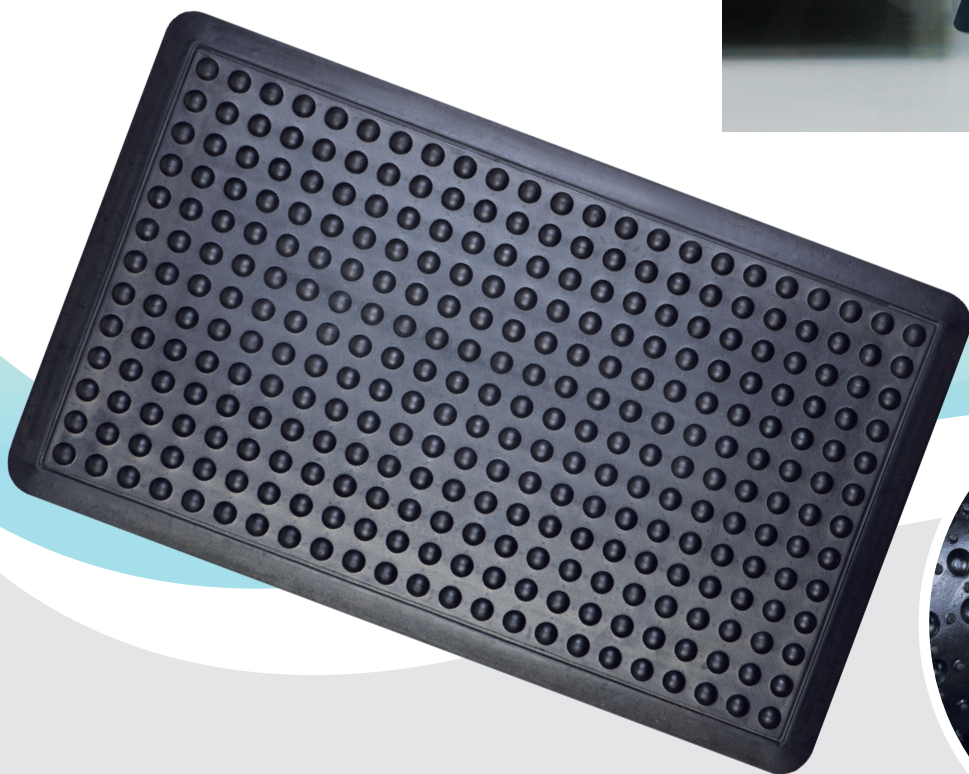

BUBBLE MAT

ANTI-FATIGUE MATS GM 702

Bubble surfaces with cushioned effects can help to improve the comfort and productivity of people who spend long hours on their feet. The closed bubble feature will trap the air flow and thereby gives a cushioned effect to the feet. Places suitable: Household – kitchen, pantry, work area. Commerce: laboratories, research and development, sales counters, cash counters.

FLIP MATS

Alternate mats are economical as both sides can be used. Usually, rubber mats are one-sided. But alternate mats are designed to use both sides. If you feel one side outworn, just flip to get a brand-new mat. Isn't it amazing?

Alternate mats are made from natural rubber and can be used as indoor mats or door entrance mats. These mats are sturdy and protect from slips and falls. These mats have a firm grip. Also, it is easy to clean and move. Repertoire of designs and color combinations add beauty to any décor.

These mats are safe for human beings and pets.

Like other mats, these alternate mats absorb moisture and keep interiors dry. Additionally, these mats grip mud, dirt and grits, making interiors clean and safe.
